FLINT HILLS

FALL

· CLASSIC ·

SEPTEMBER 24-25, 2021

NEXTGEN CATTLE CO.
PAXICO, KANSAS

Welcome to NextGen’s 5th Annual Fall Flint Hills Classic! Nestled in the vibrant Flint Hills of eastern Kansas, this region is the epicenter of the US beef backgrounding sector of the cattle industry.

NextGen is a team of people passionate about the cattle business. Our team continues to grow and cultivate relationships in every sector of the beef industry. NextGen Cattle Feeding in Allen, KS (12,000 head feedyard facility equipped with GrowSafe feed efficiency testing), NextGen Cattle Feeding at Riverbend (50,000 head one time capacity finish feedyard located in Hugoton, KS and close proximity to multiple packing plants), NextGen Trading (offering commodities and feed procurement all across the US) and of course NextGen Cattle Co Ranch, the home to our Beefmaster and Charolais seedstock operation as well as our commercial herd.

Reaching milestones, we opened our packing plant, launched our branded beef programs, and hosted our 1st annual spring sale all in the first half of the year. With the turn of summer, it’s time to think about fall breeding decisions and maximizing the return on your calf crop. With harsh weather conditions affecting large territories of the U.S., we believe now more than ever that NextGen bulls, Beefmaster and Charolais, can help you achieve your goals. At our core, NextGen is a genetic company. You could say that we backed into the seedstock business to fill some voids, that in our own experience needed to be addressed. Most notably, maternal heterosis and terminal crossbreeding, the two largest and underutilized revenue points available to the everyday rancher.

We believe the industry, and our customers, can best capitalize on the powerful nature of heterosis by utilizing a planned crossbreeding program based on the inherited traits we have selected. Few offerings will include as many bulls as NextGen that excel in carcass and growth traits, while at the same time offering strong maternal excellence. Utilization of EPD’s, performance data, and scanning information ensure that we offer bulls that you can bank on.

Early on, the team realized the profitability of value-added genetics in terms of cattle health, live performance, feed efficiency, cost of gain, and carcass merit. If we are going to own cattle, why not own cattle that have known genetics? This concept not only creates efficiency, but it also serves as its own form of risk management. We believe that our profitability should intertwine with our customers, so we created the Bull Buyer Guarantee “B2G”. We will offer a premium over market for calves sired by NextGen Cattle Company or Flint Hills Classic Cooperators.

We feel, as you review the genetic offering in the Fall Flint Hills Classic, you will find that we are committed to offering bulls that sire calves that hang profitably on the rail and produce the kind of females that have fertility and longevity that is essential for our customers. We are proud to have partners in the Flint Hills Classic that share these same visions. This is clearly evidenced by the number of Beefmaster lots that not only rank in the top 20% or higher for \$T, but also rank in the top 20% for \$M. The bulls offered in the Flint Hills Classic have all been raised together in the same elements and environment since they were weaned.

We are honored to host you at NextGen Ranch. Please feel free to contact our team for details.

SALE GUARANTEE

The seller guarantees to the buyer that: 1) the pedigree, performance data and genetic information, as represented in any sales materials (including sale catalog, supplemental sheet or sale day announcement), are accurate; and, 2) all information from the BBU database is accompanied by an accurately stated "as of" date. The seller guarantees that all animals are breeders. Bulls eighteen (18) months or older are guaranteed by the seller to have passed a Bull Breeding Soundness Evaluation (BSE) and to have been certified a satisfactory potential breeder by a licensed veterinarian within forty-five (45) days prior to sale date. Results of the BSE must be reported on a fully completed official form and attached to the health papers required for the sale. If within one-hundred twenty (120) days from the date of sale, the bull has failed to pass a BSE certified by a licensed veterinarian, buyer must send seller written notification of the failure of the test within one-hundred and twenty (120) days from the date of sale and include the BSE test results. Within sixty (60) days after seller's notification of the failed BSE test, buyer and seller shall identify a mutually agreeable licensed veterinarian or technician certified by a licensed veterinarian to perform another BSE on the bull at the buyer's expense. The results of the test shall be deemed final and conclusive of this matter and binding on buyer and seller. If, in the opinion of said veterinarian or technician, the bull is unable to pass a BSE and be confirmed a satisfactory potential breeder, he shall so certify in writing to the seller and the buyer which shall include the official form used by the Society of Theriogenology or the official BBU BSE form. In such event the buyer may return the bull to the farm of seller, provided the bull is in good condition and in compliance with the health requirements of the seller's state, for a refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller. Unless otherwise agreed by the buyer and the seller, the seller makes no guarantees with respect to the ability to freeze semen.

TERMS & CONDITIONS

Each animal will be sold to the highest bidder without reserve. The Auctioneer in charge will settle any dispute as to bids, and his decision on such matters shall be final. All sales are for cash unless satisfactory credit arrangements, including any possible reservation of security interest by the seller, have been made with the seller prior to sale. The risk of loss and injury of each animal passes to the buyer as soon as it is sold. A transferred certificate of registration must be furnished by the seller free of charge to the buyer for each animal within 45 days following the later of either the date of sale or upon the receipt of full payment. Unless otherwise announced, the seller guarantees that all animals are eligible for interstate shipment as required by applicable federal and state regulations.

For more information and updates about the sale, visit – www.NextGenCattle.com

The advertisement features a dark background with the slogan "GENETICS CHANGE EVERYTHING." in large, bold, white and gold letters. Below the slogan, it says "Shop the future of advanced cattle genetics." and includes a yellow arrow pointing to the website "nextgencattlegenetics.com". At the bottom, there is a screenshot of the website's interface, showing a navigation menu with "HOME", "BEEFMASTERS", "CORRALAIS", "ABOUT NEXTGEN", and "CONTACT US". The website also displays the slogan and a "Shop the future of advanced cattle genetics." message with a "Shop Now" button. A photograph of a brown cow is visible on the right side of the website screenshot.

Lot 1B Bred Heifer

Flashed made flushmate to Lot 1. 2315G12 features a desirable low BW EPD as well as an impressive 54.4 BW to YW EPD spread. Her terminal attributes combine value with a top 10% REA EPD ranking and a 4.21 adj IMF scan! 2315G12 is safe in calf to the exciting CJ Revolution! This ultrasound palpation calls her safe with a heifer calf, due on 1/19/22!

One of the most unique pedigrees in this offering. 785G is sired by VFF Elvis and out of a great Emmons cow! She stands on the hoof with a stylish profile fit for the show ring but also does more than hold her own on the performance sheet. 785G uses a balanced suite of traits to drive her high-ranking indices, especially \$M. If you need to inject a little carcass quality then you should utilize her 5.57 adj IMF scan to push the grid in your favor. She sells safe to CJ Revolution!

Lot 3 Bred Heifer

Black and polled! This McAlester daughter is out of a full sister to CJ Diamond Rolex, going back to the great Diamond of Soul 509. 18G6 touts impressive maternal indicators including top 15% CE, BW, WW and 5% SC. These impressive algorithm drivers culminate in her massive top 4% \$M ranking! She was determined safe with a heifer calf, sired by CJ Revolution. Expected calving date of 1/20/22.

Black and polled! 3119 possesses very balanced indices rankings by being in the top 25% for both \$T and \$M, as well as a top 35% ranking for \$FE! She's a smooth made, feminine heifer that can also put on the pounds as she boasts a 50.6 BW to YW EPD spread. July ultrasound palpation determined that she is safe in calf to McAlester with a heifer calf, expected calving date of 1/19/22!

Lot 5 Bred Heifer

This black and polled heifer is double bred Diamond of Soul 509! She sports the trademark CJ phenotype being an angular, smooth fronted female as well as dominating the EPD chart across the board. Her percentile rankings put her in the top 1% of the breed for seven traits, including \$T and \$M! She rounds out this impressive profile with a notable 25% \$FE ranking. 1982 is confirmed safe to AI date by CJ Revolution with a heifer calf, expected calving date of 1/20/22.

Calving ease and carcass quality will not be surpassed in this Red Reserve daughter! This red, polled female sports the look and quality on the hoof we all expect from the ANS brand. 207G is the kind that sets herself apart in the pasture and on scan day. Her performance chart makes you cue in on a big time 4.6 adj IMF scan that ratios in at 118, a 10.95 adj REA scan holds its own too! She is confirmed safe to CJ Sure Fire, the red and polled brother of CJ Bernard. This is a mating we expect great things from!

Lot 7 Bred Heifer

A rare opportunity to take home a Love Maker daughter here! This angular, smooth made female is double bred Diamond of Soul 509 and she shows it. Her top 3% \$M algorithm is loaded with high-ranking numbers for BW, WW, MWWT and SC. 1550G also sports a dominating 50.8 lbs BW to YW EPD spread. 1550G is safe in calf to CJ Sure Fire, expected to calve on 2/7/22.

Black and polled Motown daughter here! 1943 possesses the feminine look we expect from proven genetics like her sire and her granddam, the great Eye Candy donor. She covers your calving ease needs by ranking in the top 1% for BW EPD while posting a massive 75.4 BW to YW EPD spread, earning her chart topping 1% \$M ranking! With her big time 4.53 adj IMF scan, we are excited that she is set to calve in February to CJ Sure Fire!

Lot 9 Bred Heifer

This polled McAlester daughter is exactly what we have come to expect considering her great sire. 20/6 earns a whopping 61.1 lb BW to YW EPD spread, largely based on her top 10% growth traits. These impressive postings culminate into her large but balanced \$T and \$M rankings of 10%. Her big time REA EPD is backed by a whopping 12.64 adj REA scan which ratios out to 118! She is safe in calf to -G Prime Minister, which scanned an impressive 8.73 adj IMF!

This maternally robust Love Maker daughter just happens to be black and polled. 1955 earns big time percentile rankings like a top 1% \$M, which is buoyed by her MWWT and SC EPD rankings to produce heavy weaning and earlier maturing daughters. 1955 also has a huge 68.5 lbs BW to YW EPD spread with a great set of calving ease numbers which set her up for an impressive top 10% \$T ranking. To up the ante, she is safe in calf to CJ Diamond Rolex.

Lot 11 Bred Heifer

JH Taboo is a daughter to the great 523 cow, which generated \$43,000 in last year's Diamonds of the Flint Hills Sale with two outstanding females. Taboo is a little different as she is sired by the IMF trait leader, 1818X. She's a moderate female that holds her own with an impressive set of growth and maternal traits. She takes it a step further with an impressive carcass suite which ranks in the top 4% for REA and 1% for IMF. Taboo backs these up with incredible scan data including a 4.99 adj IMF, which ratioed out at 130! She will also calve this October with one of the very first NG Foresight Calves!

Here is a great McAlester daughter with bull calf at side! 2315F5 possesses a balanced trait EPD profile that covers all the bases from calving and sheer growth to maternal quality and carcass yield. It's easy to get excited about a stout made, capacious cow but don't forget this April bull calf! Sired by CJ Progress, this polled calf has all the genetic potential in the world! His pedigree estimates rank him above the top 5% of the breed in six different traits! To look further down the road, 2315F5 has also been pasture exposed to Red Reserve!

Lot 13 Cow - Bull Calf Pair

This deep bodied McAlester daughter emulates maternal quality as evidenced by her \$M algorithm. She bends the curve by jumping from a negative BW to a massive 52.9 WW EPD! Her high ranking YW and top percentile REA EPDs push her to a big time \$140 \$T. Her polled bull calf is sired by CJ Sure Fire and is sure to continue the legacy of the 656 cow family! To keep this great cow in season, she has been bred AI to CJ Fireball on 5/23/21 and pasture exposed to the carcass driven Red Reserve!

% RK	5	1	80

Black and polled, this yearling Fireball heifer sells ready to breed! 554H sports an imposing maternal profile centered on her 49.6 lbs of BW to WW EPD spread, which adds into her \$42.11 \$M. She backs her EPD claims with a 117 ratio in the weaning pen. 554H covers the terminal end of the spectrum with a 10% YW EPD and a top \$T index ranking. This is a great EPD profile built on a high performing pedigree!

Out of the vaunted paternal sister to McAlester, Destiny 4622 is one great donor. In this offering you will see two of her daughters by Love Maker! 622H2 couples her incredible phenotype with a rare balance of maternal and terminal traits. This quality drives her indices to powerful levels, assuring the right kind of performance for generations to come. This moderate framed cow family excels in producing the right kind for any situation!

Lot 15B Open Heifer

Flushmate to the Lot 15A female with the most notable difference being that she is red. Finding a red Love Maker daughter with the eye appeal and genetic profile that 622H4 earns is rare indeed. Her algorithm drivers produce a perfectly balanced 4% ranking for both \$T and \$M and feature a huge 69.7 lbs of BW to YW EPD spread. Her top 5% rankings for growth traits are initiated by the power punch of her great dam, Destiny 4622 which is the #2 REA donor in the breed!

Out of Motown's most highly regarded daughter Miss CJ 860 and sired by the great Love Maker! You can expect the sheer amount of volume and femininity to be special. 860H2 is a curve bender that touts a 45.5 lbs BW to WW EPD spread that drives her \$M to an impressive 2% ranking in the breed. Backed by a highly proven blend of performance genetics and true eye appeal, she sells open and ready to breed!

Lot 16B Open Heifer

Flushmate to Lot 16A, 860H7 exhibits the consistency of this high performing mating. Maternally robust, she uses a whopping 45.5 lbs BW to WW epd spread to fuel her \$M ranking into the top 2%! This big growth spread is buoyed by CE and BW both ranking in the top 10% of the breed. Couple this information with quality seen on the hoof and you have a potential herd changer for any program!

CHRK Black Ruby is one of the most notable cows in this breed with many high quality progeny. 1849H is a very unique offering. The type and kind presented in this pair of sisters is not just a combination of power and femininity, but also sheer performance on every front. This curve bender soars from a -2.4 BW to a 47 WW EPD. She uses this spread along with her maternal suite to post a \$M in the top 2% of the breed. Her efficiency index is not slouch either with high post weaning gains and an RFI EPD ranking in the top 30%.

Lot 17B Open Heifer

As a flushmate to 17A, this polled, sister shows the consistency you can trust from this great cow family. 1849H2 is highly maternal oriented. \$M algorithm drivers include a top 10% WW EPD rank along with a top 4% SC to allow those powerful daughters to enter production quickly and efficiently. She also scores a notable 62.2 lbs BW to YW EPD spread which features a -3.2 BW epd! The 1849 cow family exceeds all expectations for production, not only can you expect great females like this pair, but the 1849 sons have consistently demanded high values at the Flint Hills Classic!

Our bull buyers drive the value for McAlester progeny year in and out. The 509 cow family does the very same thing and for good reason. In this open heifer you see posts a massive 68.3 lb spread from BW to YW EPD rank with WW EPD ranking in the top 10%. The maternal values seen here drive demand for the breed's replacement female market and the power of McAlester covers grand progeny on the rail. This pair of flushmates will give you the option to pick from two polled females, the main difference, simply hide color.

Here is a red daughter from the great 509 cow family. These flushmates show just how powerful this combination of genetics can be! Her huge rankings for growth traits are driven by a massive 77.4 lb BW to YW EPD spread. She also covers the maternal needs with MWWT, SC, and AFC to post a big time \$M rank! This pair of sisters is a unique find within the breed and both will set your herd up for success!

This Tonto daughter does more than sport a balanced trait profile. She shows you the quality she possesses on the hoof as you watch her move. With the sleek appearance the parent herd is known for, you can take this breeding piece in a number of directions without going wrong. 40/195 does so much to cover the bases as indicated by her balanced indices, your hardest decision is picking out the bull to breed her to!
