# WELCOME TO THE ADVANTAGE PLUS BEEFMASTER BULL SALE !

Dear Friends and Cattlemen,

Welcome to the 2025 Advantage Plus Beefmaster Bull Sale, to be held Saturday, February 22nd at the Washington County Fairgrounds in Brenham, TX. This year's offering will feature an even more explosive set of performance herd sires and high caliber genetics than ever before. From impressive growth and big carcass data to low birth weights and super maternal traits, this elite set of 80 performance tested bulls has it all.

Over a year ago, a select set of over 200 Beefmaster bull calves, from breed leading programs, were brought together for the Advantage Plus Performance Test. These bulls originating from Collier Farms and Swinging B Ranch genetics were combined and tested for weight per day of age growth (WDA), average daily gain (ADG), carcass qualities like REA and IMF, disposition, fleshing ease, and overall visual performance. After a year of stringent culling and a final formulated performance rank, only the top 80 bulls were allowed to sell. When combined with a full breeding soundness exam (BSE), health tests, and a 180-day guarantee, these bulls provide cattlemen with the tools and security to make their programs more profitable.

On February 22nd, you will be given the unique opportunity to invest in these cutting-edge Advantage genetics and in the future of your program. Study the catalog, view the video, and feel free to reach out with questions concerning the offering and how to implement the qualities they offer into your herd. Advantage Plus herd sires will give you the MATERNAL ADVANTAGE, a whole calf crop at a time!

Trey Scherer, Beefmaster Advantage Program

**We are committed to insuring the animal you bought is genetically accurate and the performance data has the utmost integrity. The bulls have been DNA tested for parent verification and the confirmation abbreviation is listed by their DNA number in the catalog. We went another step further by implementing the breed's new Genomically Enhanced EPDs (GE-EPDs). Every bull in the sale possesses GE-EPDs, which takes accuracy values to a whole new level. With the Advantage Plus, you get what you paid for, and more!**

## WE ARE COMMITTED TO ACCURACY

### Dedicated to YOUR Confidence

We believe in providing our customers with the most accurate information possible. Combining DNA information with a bull's pedigree and individual production data significantly increases the reliability of his EPDs. To better serve our customers, all bulls in this sale have genomic-enhanced EPDs powered by GGP DNA testing.

The table below shows the estimated number of progeny the DNA information adds to the reliability of the EPDs. For nearly all traits, the accuracy of the bulls' genomic-enhanced EPDs is equivalent to the data from an entire calf crop.

	CED	BW	WW	YW	MILK	HP	MARB	REA
Est. Progeny	21	13	19	22	14	10	9	11

The genomic-enhanced EPDs in this sale catalog are made possible through a partnership with Neogen GeneSeek. We've made the investment in the world's most-advanced DNA testing for seedstock cattle. Our aim is to help you buy the right bulls for your goals with the highest-possible confidence in their quality and knowledge of their potential.

### DNA Abbreviations & Meanings

**PV = parent verified to both sire and dam**

**SV = verified to sire only at this time**

**DV = verified to dam only at this time**

**PO = profile only - parentage undetermined at this time**

**Pending = DNA is being reviewed for various reasons or has not been processed at catalog time.**

*\*Note: SV, DV, PO, and Pending notations do not mean an animal can not or will not be parent verified but does mean that there is NO guarantee in the future that a sample can be obtained on a parent or can be verified to such.*

### Benefits of GE-EPDs to cow/calf producers

#### Maternal GE-EPDs – Improve profits per cow:

- Verify calving-ease bulls, saving time, cost and stress when calving heifers.
- Identify bulls and cows with superior reproduction traits to improve cowherd fertility and maternal productivity.
- Better fertility improves conception rates, calving window and calf-crop uniformity.

#### Performance GE-EPDs – Optimize efficient returns:

- Produce cows that improve pounds weaned per exposed female.
- Produce cows for optimum growth for your grazing environment.
- Improve feed efficiency, producing heifers and cows that gain well on less feed and pass thrifty traits onto to their calves.

#### Quality GE-EPDs – More consistency of beef quality:

- Helps customers retaining calves, or selling into grids or value networks.
- Adds value and reputation quality in stockers or feeder calves.
- Predicts quality up front, saving years of valuable time, with less hassle than collecting carcass data.

RED | DE-HORNED

Commanding the top spot in 2025, this stellar individual has the extreme style, brute force, and true performance of a champion. From outstanding test performance and strong carcass measures with no fat, to breed leading genetics and a \$T in the Top 10% of the breed, this is the breed's next promotable semen sire.

**THANK YOU FOR ATTENDING THIS  
ADVANTAGE PROGRAM EVENT!**

# TERMS AND CONDITIONS

**BIDDING:** Each animal will be sold to the highest bidder without reserve.

**BIDDING DISPUTE:** The Auctioneer in charge will settle any dispute as to bids, and his decision on such matters shall be final.

**CASH SALE:** All sales are for cash unless satisfactory credit arrangements, including any possible reservation of security interest by the seller, have been made with the seller prior to sale.

**BUYER'S RISK AT THE TIME OF SALE:** The risk of loss and injury of each animal passes to the buyer as soon as it is sold; however, it is the obligation of the seller to ensure that sold animals are fed and cared for free of charge to the buyer until loaded for shipment or until the expiration of 24 hours after the sale, whichever occurs sooner.

**CERTIFICATES OF REGISTRATION:** A transferred certificate of registration must be furnished by the seller free of charge to the buyer for each animal within 65 days following the later of either the date of sale or upon the receipt of full payment.

**HEALTH:** Health papers suitable for interstate shipment will be furnished on all animals.

**ANNOUNCEMENTS:** If there is any inconsistency in information in terms of the sales materials (e.g. sale catalog, supplemental sheets, sale day announcements) 1) sale day announcements will control over both the supplement sheet and the sale catalog, and 2) the supplement sheet will control over the sale catalog.

**IDENTIFICATION RESPONSIBILITIES:** 1) Prior to the sale, the seller must ensure that each animal has a readable permanent identification mark (tattoo, hot-iron brand or freeze brand) corresponding to its registration identification and 2) The buyer must check all permanent identification marks for accuracy upon possession and report any discrepancies to the seller immediately.

**OFFICIAL BBU INFORMATION:** All existing available official BBU information, including calf source, service sire and/or potential service sires (registration numbers) and performance data may be included in the final sales catalog.

**PEDIGREE, PERFORMANCE AND GENETIC INFORMATION GUARANTEES:** The seller guarantees to the buyer that: 1) the pedigree, performance data and genetic information, as represented in any sales materials (including sale catalog, supplemental sheet or sale day announcement), are accurate; and, 2) all information from the BBU database is accompanied by an accurately stated "as of" date. The absence in any sales materials of a specific designation on the pedigree of an animal does not establish that the animal in question is not a carrier of such genetic defect.

**BREEDING GUARANTEES:**

1) The seller guarantees that all animals are breeders, with the exception of: (a) calves under 12 months of age at the time of the sale; (b) animals shown after the sale has occurred (in such cases, the breeding guarantees, if any, will be those guarantees as are agreed upon between the seller and the buyer); (c) animals who suffer injury or disease following the sale; (d) animals administered any super ovulation drug or growth hormone after purchase; and, (e) animals subjected to gross negligence by or willful misconduct on the part of the buyer.

2) Bulls eighteen (18) months or older are guaranteed by the seller to have passed a Bull Breeding Soundness Evaluation (BSE) and to have been certified a satisfactory potential breeder by a licensed veterinarian with sixty (60) days prior to sale date. Results of the BSE must be reported on a fully completed official form and attached to the health papers required for the sale.

3) If within one-hundred twenty (120) days from the date of sale, the bull has failed to pass a BSE certified by a licensed veterinarian, buyer must send seller written notification of the failure of the test within one-hundred twenty (120) days from the date of sale and include the BSE test results. Within sixty (60) days after seller's notification of the failed BSE test, buyer and seller shall identify a mutually agreeable licensed veterinarian or technician certified by a licensed veterinarian to perform another BSE on the bull at the buyer's expense. The results of the test shall be deemed final and conclusive of this matter and binding on buyer and seller. If, in the opinion of said veterinarian or technician, the bull is unable to pass a BSE and be confirmed a satisfactory potential breeder, he shall so certify in writing to the seller and the buyer which shall include the official form used by the Society of Theriogenology or the official BBU BSE form. In such event the buyer may return the bull to the farm of seller, provided the bull is in good condition and in compliance with the health requirements of the seller's state, for a refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller. **Unless otherwise agreed by the buyer and the seller, the seller makes no guarantees with respect to the ability to freeze semen.**

**PRIVILEGES OF RETURN OR ADJUSTMENT OPTIONS:**

1) With the exception of any applicable transportation expenses described herein, a seller shall never be liable to a buyer for an amount greater than the original selling price of any animal sold under these Sales Terms and Conditions.

2) Unless otherwise stated, all claims for adjustment or refund must be made in writing to the seller within 180 days following the sale of the animal in question.

3) If an animal is claimed to be a non-breeder, the animal may be returned to the seller if it is in a good condition and complies with the health requirements of the seller's state. At the option of the buyer, the seller may issue a credit to the buyer for use in a future purchase or provide an animal of equal value subject to the approval of buyer. If the buyer exercises either such option, the claim shall be deemed fully and satisfactorily resolved. However, in the event that the buyer requests a refund of the purchase price, the seller may, at its option, either issue a refund of the full purchase price or, shall have 180 days from the date the animal is returned to the seller's farm to conduct a trial to demonstrate the returned animal is a breeder. Refund of the full purchase price or demonstrated proof that the animal is a breeder during the test trial shall be deemed full satisfaction and settlement of the claim. Any expense incurred for transporting an animal claimed to be a non-breeder will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place. If the seller proves the animal to be a breeder, it will be the obligation of the buyer to take delivery of the animal and pay all transportation expenses.

4) If an animal is sold and subsequently becomes ineligible for registration under the rules of BBU for reasons other than incorrect parentage, the seller must make a satisfactory adjustment on the purchase price to the buyer, or at the option of the buyer, refund the purchase price upon the return of the animal to the farm of the seller.

5) If an animal (including the offspring of a pregnant recipient) is sold and through parentage verification is proven to have incorrect parentage, as represented by the animal's certificate of registration, and for which correct parentage can be determined, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing

to the seller on or before the first anniversary of the date of the sale.

6) Unless stated otherwise, all transportation expenses incurred will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place.

**GENETIC DEFECTS AND FACTORS: REQUIRED DISCLOSURES RELATING TO CERTAIN TEST RESULTS OR POTENTIAL CARRIER STATUS OF AN ANIMAL:**

1) In advance of any sales of an animal, the seller shall have the affirmative duty to notify any potential buyer of any test results in which an animal for sale has tested positive (under a test and at a laboratory approved by BBU) as a carrier of any genetic defect or genetic factor recognized by BBU.

**MISCELLANEOUS:**

1) The above terms and conditions of sale constitute a contract between the buyer and the seller and are equally binding upon both parties. Each sale or resale of an animal constitutes a separate transaction.

2) Neither BBU nor any director, officer, employee or representative of BBU or any of its related entities shall be liable in any way with respect to a transaction conducted under these Sales Terms and Conditions; nor shall BBU, its directors, officers, employees or representatives be responsible in any way for enforcing the terms and conditions of any agreement between a buyer and a seller. Each buyer and seller agree to hold BBU, its directors, officers, employees, representatives and related entities harmless from all damages, expenses, claims, losses and other liabilities associated with a transaction conducted under these Suggested Sales Terms and Conditions.

3) No sponsor, sale manager, or other person connected with the management of a sale shall be liable in any way with respect to transactions conducted under these Sales Terms and Conditions.

4) These sale terms and conditions and all rights, obligations and duties arising hereunder and all disputes arising hereunder will be construed in accordance with, and governed by, the laws of the state in which the sale occurs, without giving effect to such state's choice of law rules.

5) UNLESS OTHERWISE EXPRESSLY STATED IN THESE SALE TERMS AND CONDITIONS OR ANY OTHER WRITTEN AGREEMENT BETWEEN THE PARTIES RELATING TO THE SALE OR BEEFMASTER, BEEFMASTER ADVANCER, E6 OR UPGRADING CATTLE UNDER THESE SALE TERMS AND CONDITIONS, SELLER MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, EVEN IF SUCH PURPOSE IS KNOWN TO THE PARTIES. THE REMEDIES PROVIDED IN THESE SALE TERMS AND CONDITIONS ARE THE EXCLUSIVE REMEDIES OF THE BUYER, OR ANY PARTY CLAIMING THROUGH THE BUYER, AND UNDER NO CIRCUMSTANCES WILL THE SELLER BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES UNDER ANY INDEMNITY PROVISION OR OTHERWISE.
